

Subject: **Application for Web Development Position**

Dear Sir/Madam,

I am excited to apply for the Web Development position. I have a strong background in web development and I am skilled in HTML, CSS, Bootstrap, jQuery, MySQL, PHP, Laravel and WordPress. I am confident that I can contribute effectively to your team. I am also currently learning more about JavaScript and Drupal to improve my skills.

In my past jobs, I have created and maintained many websites and web applications. I have designed responsive and user-friendly websites using HTML, CSS, and Bootstrap. I have added interactive features using JavaScript and jQuery to make the user experience better. My knowledge of PHP and MySQL has helped me build strong back-end systems, manage databases well, and integrate them with front-end technologies.

I am excited about the chance to work with the Summer Internship Program and help with your success. Thank you for considering my application. I look forward to discussing how my skills and experiences can meet your needs.

Sincerely,

Muhammad Ahmad
